

ElectricLand

ElectricLand performs classic rock with drive and passion, covering favorites from the 60's to the present. They also mix in some country, blues, and slower songs to provide their audience with a nice variety. The band puts a priority on the quality of their sound, providing a good balance of all performers at a volume that is pleasing to the listener.

The five members of ElectricLand combine their individual talents to create a unique and powerful sound. Each player came to the band with many years of performance experience as well as a wealth of musical knowledge and appreciation. It is their collective rich backgrounds that gives ElectricLand the ability to understand and execute a large collection of songs that appeal to their audiences.

The band is fronted by lead singer Terri Dempsey, with Frank Carasotti and Dan Kane also contributing lead vocals. Dan and Curt Carlson keep the energy high by trading off on lead guitar, with Dan also doubling on keyboard. A solid foundation is provided by bassist Dan Moss and Frank on drums.
